SHIATSU MASSAGE CUSHION
QUADRO

04 Massage

Introduction

Massage cushion with 2 sources of infrared heat. Rolling tapping massage system. Ideal for lumbar and dorsal massage. The massage combined with infrared heat promotes the increase of blood circulation and, therefore, causes an increase in oxygen supply in tissues and organs. The reason why infrared heat is beneficial to humans is because of its ability of increasing the body temperature.

Remote control

The remote control allows you to start the massage and activate the heat function. These 2 functions are independent and do work at the same time or separately.

Massage..... LED indicator power ON
Heat

Relax

Functions

- Combines vibration function with a heating system.
- Remote control for power and area regulator.
- Relaxing massage across the back, neck, buttocks, legs or even lumbar area.
- The vibration allows better blood circulation throughout your body.

05 Message

Benefits of shiatsu massage and infrared heat

- Improves blood circulation and metabolism
- Expels harmful toxins
- Protects the spine and corrects posture (beneficial to the intervertebral discs and sciatica)
- It helps sleep soundly (beneficial for insomnia and relieves fatigue)
- It facilitates micro-circulation of blood
- Enhances the beauty (relieves stress, regulates the nervous system)
- Accelerates the functions of the liver and kidneys (purifies the blood and eliminates leucorrhea)
- Helps and improves the general condition of the body in women, particularly during menopause and / or menstrual cycles.
- Relieves pain, penetrating heat (rheumatism, arthritis, back pain, muscle pain,).

MASSAGE MAT WITH HEAT

06 Massage

Introduction

The massage mat **ECO-DE®** helps eliminate muscle fatigue accumulated during the day and provides a relaxing massage for the entire body. This type of massage promotes the increase in blood circulation and, therefore, causes an increase in oxygen supply to tissues and organs.

Another of the many advantages of these mats is that it can be placed either on the bed and sofa, couch or chair.

Remote control

With the Remote control **ECO-DE®** you can choose any time the area of the body that you want to massage (neck, back, lumbar or legs), the intensity of the massage (low, medium or high) as well as the massage mode (5 vibrating massage modes).

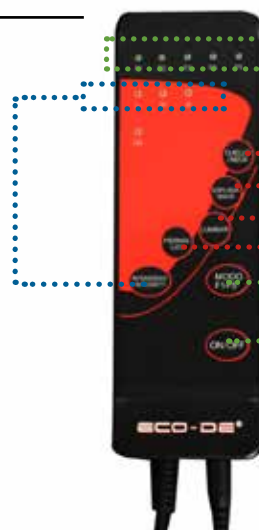

LED indicator for intensity

5 minutes with
EYE MASSAGER

=

10 minutes
Massage with fingers

Introduction

Massage glasses ECO-716 provide a complete massage into the entire area of the eye sockets to help you relax. Eliminate insomnia, dark circles and relieves headaches.

24 points magnetic pressure massage, 9 automatic massage modes.

Suitable for:

- University and middle school students who suffer from false near sightedness.
- Eye fatigue or eye uneasiness caused by overuse of brain.
- People wearing glasses.
- People who force constantly the sight, designers, teachers, use of computers, etc.

Relax

ECO-716 EYE MASSAGER

ECO-DE®

24 acupoints

The feeling of having tired eyes is a very common symptom in modern society in response to a type of behavior that forces too much the organ of vision.

The main symptoms of having tired eyes are:
Eye pain, headache, red eyes, difficulty in reading, blurred or double vision in reading, discomfort to light etc.

09
Massage

Tip

Use the Eye massager three times a day, for 3-5 minutes each time, to prevent and cure the tired eyes syndrome. It will improve blood circulation and micro-circulation around the eyes. The Eye Massager increases the oxygen uptake in the tissues, and thus invigorating and revitalizing the optic nerve cells, activating key body enzymes to restoring ciliary capability, giving you a clear and precise view.

Product measures	39.8 x 40.8 x 13.1 cm
Packaging	41 x 44 x 15 cm
Weight	6 kg
Groupage	2/box 54/pallet
Power / Frequency	220/230 V 50-60 HZ
EAN	8 436540 963161

Introduction

The facial sauna **ECO-DE®**, opens the pores and leaves the skin soft and hydrated. The steam cleaning helps release impurities below the surface of the skin and achieve a more youthful skin. Steam can increase blood flow, help eliminate dead skin cells and remove blackheads.

The facial epidermis accumulates a number of invisible particles that are deposited into the pores and that however much we wash our faces we do not remove them entirely. The plugged pores can not guarantee the purifying function of the skin. Therefore it is necessary to get rid of all these external adhesions and to restore the drainage mechanism.

With facial sauna **ECO-DE®**, we can set up a small beauty center at home. Eliminates impurities, blackheads, ...a deeper facial cleansing.

Included

- Aroma diffuser and steam regulator.
- Extra-large face mask, valid for men and women.
- Inhaler.
- Measurer.
- Power: 85-105W.

* The fragrances for aromatherapy are sold separately.

ECO-DE®

ECO-4005 FACIAL SAUNA

Use

Use only distilled or spring water.

Aromatherapy: Add several drops of essential oil or herbs of your choice directly into the distilled water. If you don't have herbs, use a green tea bag. Tie your hair back and wait for the steam. Put a towel around your head and lean over the facial sauna to capture the steam. After a few minutes, or when the moisture evaporates, exfoliate your skin gently and apply a toner or moisturizer, if desired.

Tip: use fragrances 100% biodegradables.

Benefits

015
Massage

- Relaxed and clean skin.
- The steam expands the pores and cleanses the skin.
- Easy to use: pour water into the tank and wait for it to warm up (3 minutes).
- Ideal for traveling.
- The skin takes on a healthy, relaxed and bright look. Purifies and relaxes.
- Each session can last between 1-15 minutes.
- Relieves sinusitis pain and mild respiratory diseases.

ECO-DE®

SHIATSU MASSAGER
PRESSOTHERAPY

016
Massage

1. ON / OFF
2. Mode
3. Intensity
4. Heat

Introduction

The Shiatsu Massager **ECO-DE®** uses the technique of traditional Shiatsu massage and acupressure. Thanks to the modern technology you can enjoy a real foot massage that helps relax muscles, eliminate fatigue, combat stress and tension. The apparatus also has heat function.

Use

- Turn the power ON by pressing button (1). By default the device will work with heat function ON (red light), HIGH level of force (red light) and mode 1 (blue light).
- To turn OFF the heat press button HEAT (4), and the red light goes off.
- To change the intensity level press INTENSITY button (3)
Blue light - low, **Red light** - high
- To change the massage mode press MODE button (2).
Blue light - mode 1, **Red light** - mode 2.
- To turn OFF the unit press button ON / OFF (1).

Foot reflexology

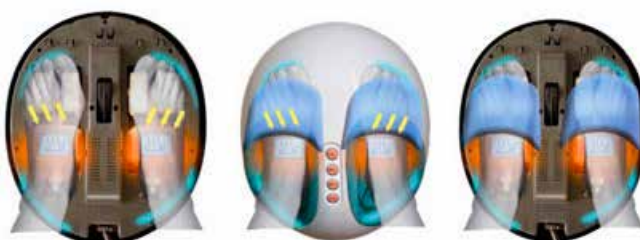

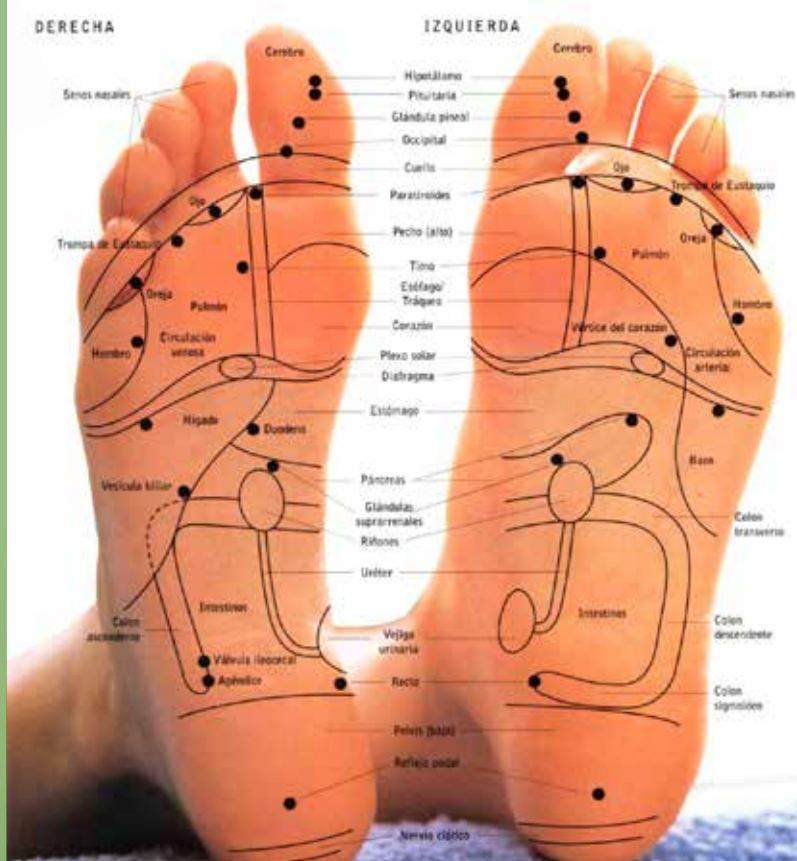

Foot reflexology is a technique that works using acupressure on the reflex points of the foot, whose main objective is to regulate and balance the whole body in order to restore the homeostasis. Reflexologists claim that certain points of the feet become more sensitive when there is disease elsewhere in the body: an increase in pain at these points indicate the presence of the disease, and a massage at these points would relieve the pain.

Functions

- Pressotherapy massage on the feet.
- Massage kneading and air massage.
- Roller Massage.
- Front Massage feet.
- Heat combined with massage.
- Intensity control.

Introduction

Unique design and comfort in chocolate brown along with one of the best vibrating massage chairs. CHAIR IN HIGH QUALITY FABRIC.

Benefits

The massage chairs or so-called *relax* chairs, are used to restore the vitality of the body, help regulate blood and lymphatic fluid circulation and eliminate toxins and reduce muscle tension.

Daily use of a massage chair delays symptoms of fatigue in muscles and reduces stress. Therefore facilitates relaxation and muscle recovery and can help improve insomnia caused by stress.

Functions

- Vibrating massage chair.
- Remote control to choose between 4 automatic massages and 1 manual, dividing the body into two areas: legs and lower back.
- 2 levels of adjustable intensity.
- Lever to recline almost horizontally.
- High strength aluminum structure.
- High density eliocel padded and breathable fabric.
- 4 zones of independent massage.
- LEDs to control the treated area.

**MASSAGE ARMCHAIR
RIO 2016**

046
Massage

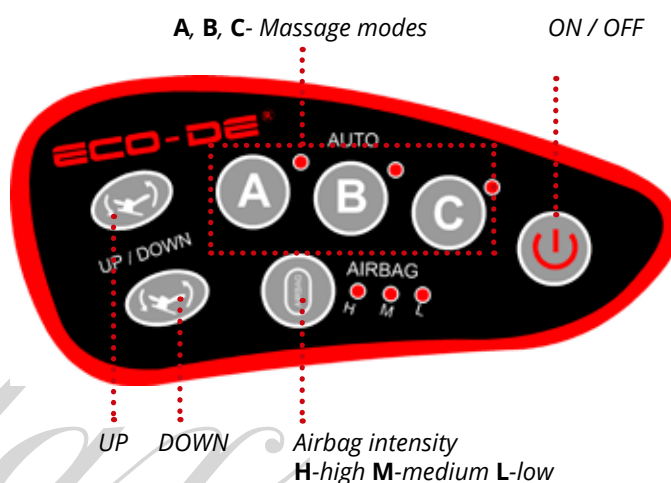

Introduction

Sophisticated and innovative armchair with massage.

Integrated remote control, which allows you to recline, control massage programs, and the hardness of the airbags. It comprises 3 direct and automatic massages: refresh, recovery and relax (A, B, C.) Airbags on the thighs, buttocks, hips and legs alternately fill and release air to give the massage by air pressure. This helps to relax and improve the circulation of the lower body.

3 airbags intensities indicated by LED (High, Medium, Low).

Control panel

Features

- Shiatsu system distance of 64 cm.
- Back tilt angle: 115-158°
- Angle of inclination of leg rests: 10-85°
- Swivel base.

We have developed Massage Chairs using the latest technology in massage centres, at your service to pamper every part of your body. Our massage armchairs with Shiatsu act with little pressures on the nerve endings to produce a sedative effect, and by causing dilator reflexes on the lymphatic vessels and veins, also favour the nutrition of tissues and general activation of blood circulation.
