Cocina

8 STAGES FILTER

Intro

The "Aqua filter tower" **ECO-DE®** is a revolutionary cleaning system inspired from nature itself. The water coming from rains and rainfalls, contains microorganisms and other harmful substances that are removed through filtration cycle thanks to the different layers of the soil. In this way the water of the groundwater is cleaner and safer.

"Aqua filter tower" **ECO-DE®** is based on the same analogy of water filtration through the different layers explained further.

The result is a purified, healthy and high quality water.

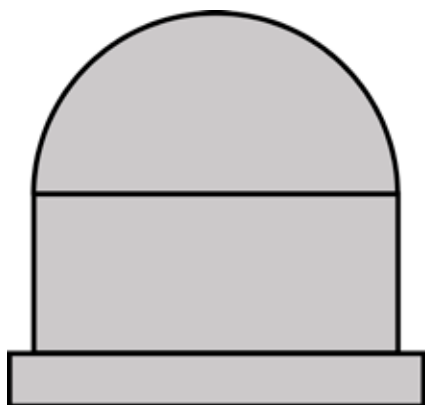

It is necessary to thoroughly wash the filters before first use.

First use

Keep each filter under tap water for several minutes to clear them of any impurities due to the manufacturing process.

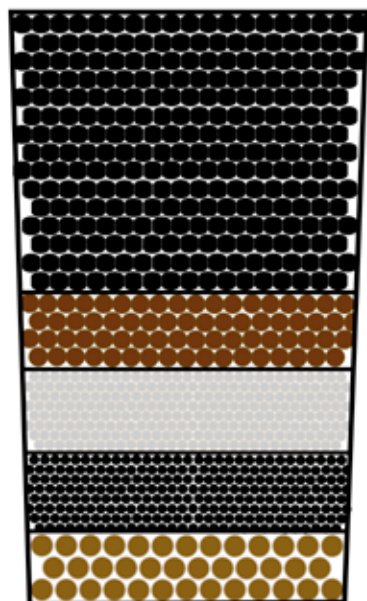

MULTILAYER FILTER

1. CERAMIC FILTER

The main component of the ceramic filter is a diatom with highly compressed high-strength ceramics baked at high temperature. Its function is to filter water metals such as iron and sulfur, and particles health hazard that can cause typhoid, cholera and dysentery. Filtering is 0.2 micron

Clean the filter with water and soft brush since, with time and because of the retained substances, it changes color. (Never use soap).

2. MULTI FILTER ECO-3150-R

This filter consists of several layers, each with a specific function. The result is mineral, pure water, clean and clear. Filter layers containing:

- 1. Activated carbon impregnated with silver salts:** Removes chlorine, trihalomethanes, organic chemicals, flavors, aromas and undesirable colors.
- 2. Mineral Arena:** Enrich the water with some minerals to maintain alkalinity, thus restoring the pH balance in the body fluids.
- 3. Silica sand:** Remove the acidic components of water to keep your balance PH
- 4. Activated carbon impregnated with silver salts:** Removes chlorine, trihalomethanes, organic chemicals, flavors, aromas and undesirable colors.
- 5. Medical Arena:** It is a sterilizing material. Kills any bacteria and prevent pollution of the water tank.

3. MINERAL STONES

These stones come from the seabed and are at a depth of between 300 and 600 meters. Its function is to add minerals such as potassium, calcium, magnesium and other essential micro health.

4. MAGNETIC KEY

The key contains therein a magnet to align the molecules water thus obtaining the benefit of providing more vitality and health the human body. The result is a clean, free water all impurities, fresh and healthy, ready to be eaten.

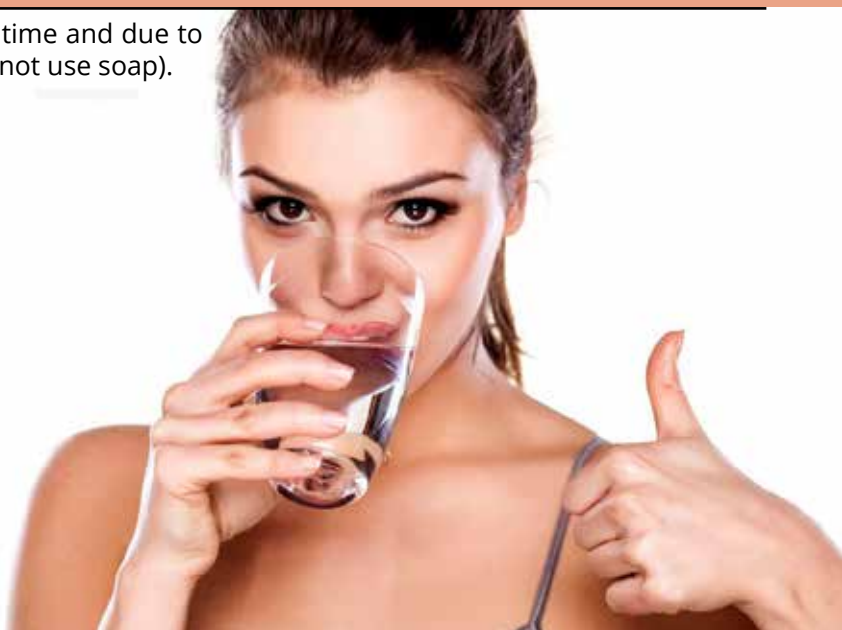

Maintenance

Clean the filters with water and a soft brush. Over time and due to retained substances, impurities are deposited. (Do not use soap).

* Change of filters every 6 months approximately.

Control Panel

Dieta Chef **ECO-DE®** is the new concept of multi-function kitchen robot we would like to share with you. It is designed for cooking all kinds of healthy recipes which will help to maintain a balanced diet. Dieta Chef **ECO-DE®** incorporates six cooking programs in addition to the 360° rotation function (FOOD/ROLLER) that you can easily choose according to your recipe and type of food.

Characteristics

- LED control panel
- Transparent lid
- Nonstick removable bowl
- Stainless steel accessories
- Lid locking system
- Automatic safety shutdown
- Rotation function 360°

Cooking fat free is one of the best options when it comes to opt for healthy cooking and maintain body fit. Both, lower rack and upper double rack, are ideal for grilling meat, fish and vegetables. The food is separated from the bottom of the nonstick bowl which has 2 advantages.

- Allows better heat circulations providing crunchy food.
- Removes the residual fat from food.

Follow some of our **ECO-DE®** low-fat recipe suggestions or make your own.

ECO-400 FOOD PROCESSOR

Included accessories

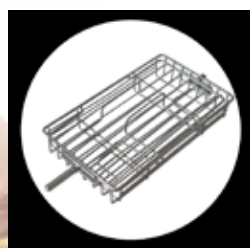

Removable bowl - is the basic accessory for all recipes because it is the main container for all the other accessories. 8 liter capacity, removable, easy to clean and stainless steel.

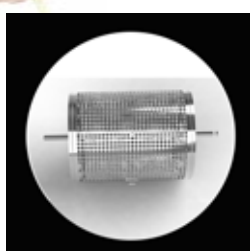

Lower grill - It is used to separate food from the bottom surface of the bucket, which will make them lose fat and allow free circulation of hot air.

Tray or pan - It is the perfect accessory to make scrambled eggs, stir fry or other dishes. It always rests on the lower grill and is easy to remove and serve.

Upper double grill - It is probably the most useful accessory for cooking meat, fish and vegetables. ROTATION 360° option allows both homogeneous heat distribution as the fall of fat.

Cylindrical grill - The cylindrical shape facilitates rotation of the food and allows the entrance of heat through the small holes without dropping food. Ideal for cooking fried chips without oil.

Accessory for poultry- to cook all kinds of medium-sized poultry. Rotation 360° from the central axis, in order to receive homogeneous and uniform heat.

Tong - are very practical when it comes to remove and replace the accessories. They have two functions; to avoid the direct contact with food and avoid burnings when removing the accessories from the robot after use.

**no
OIL**

029
Cocina

Dieta Chef **ECO-DE®** has a safety shutdown system in order to regulate the desired temperature inside the robot and /or in case the lid is open during use. In this way, you can open the lid, control the status of the food anytime, close the lid the device will resume at the point where it was interrupted, without having to re-adjust time and temperature again.

Remote control

Introduction

Combines materials and 3D MEMORY FOAM elastic tissue, maintains the correct alignment of the spine and body during the break, and reduces pressure points.

ECO-DE® MATTRESS Baicent Fleur de Lavande Massager breathable fabric has lateral 3D. It facilitates movement and air exchange using our own inertia when turning or changing position. 3D tissue regulates air, moisture and hygiene, hypoallergenic and breathable treatment.

MEMORY FOAM high density provides an incomparable feeling of weightlessness that facilitates making restful break. It is especially recommended for people with rheumatism, arthritis, scoliosis, kyphosis, and all kinds of ailments that require adequate rest.

MASSAGE TOPPER BIOCERAMIC

038
Descanso

Introduction

We present **ECO-DE®** bioceramic; Topper MATTRESS extends the life of your MATTRESS and renew your rest for a lot less money than it would cost you to buy a new MATTRESS.

The bioceramic technology consists of a composition of tissue (hypoallergenic and antibacterial), materials that are capable of converting your energy emitting FIR infrared waves. Among its Benefits and thanks to the full vibratory massage include increased blood circulation and restoring daily fatigue.

In addition, the Renew-MATTRESS bioceramic **ECO-DE®**, contains inside a copper mesh attached to a ball of electromagnetic discharge backstop that absorb body energy we emit during sleep and return that energy through wave infrared (FIR) increasing blood flow without increasing body temperature.

Remote control

Electrostatic discharge ball with backstop.

Clamping rubber.

Command massage, lumbar and heat.

045
Descanso

Introduction

To avoid future back and joint problems, you should check the hardness of our bed and following all its components. There are medium-hard mattresses but if you choose a hard MATTRESS, can incorporate a wooden slats as the **ECO-DE®** mattress that is more flexible and thus not add strength to your MATTRESS.

With wooden slats **ECO-DE®**, you can choose almost MATTRESS you want because they are the perfect complement to any hardness of bed.
